## RESEARCH INTERESTS

---

**My Mission** is to design *more mechanically resilient* engineering materials and structures (with exceptional strength and fracture/fatigue resistance) for aerospace and energy applications while enabling *more socioresilient* utilization of these materials throughout their *entire* life cycle. The success of the mission hinges on the integration of *multiscale modeling* (e.g., atomistic modeling, crystal plasticity modeling, phase field modeling), *advanced machine learning* (e.g., generative AI), and *multiscale materials characterization*.

**Scientific Endeavors** that underpin my mission include i) advancing *theories of strength* for materials exhibiting exceptional structural, microstructural, and/or compositional *heterogeneity*, e.g., complex concentrated alloys, additively manufactured materials, ceramic composites, ii) developing experimentally validated models with *uncertainty quantification* to predict the *inelastic* deformation and *fracture* of materials under *normal* and *extreme* conditions, iii) devising *multiphysics* methodologies for *manipulating* material microstructures and for *rejuvenating, repairing, and recycling* damaged heterogeneous materials.

Concurrently with the research thrust described above, I am committed to constructing a machine learning-enabled open-access platform for materials characterization.

## SCIENTIFIC SKILLS

---

- **Programming:** Python, Fortran, Matlab, TensorFlow, Scikit-learn, LaTeX
- **Computational:** ABAQUS, ANSYS, FEAP, FEniCS, LAMMPS, VASP, Creo Parametric, HyperMesh
- **Experimental:** Instron Testing Machine, Nano-indentation, Digital Image Correlation

## EMPLOYMENT HISTORY

---

### Georgia Institute of Technology, USA

Postdoctoral Fellow, George W. Woodruff School of Mechanical Engineering  
Working with Prof. Ting Zhu

August 2022 – Present

### Brown University, USA

Postdoctoral Research Associate, School of Engineering  
Working with Profs. Brian W. Sheldon, Nitin P. Padture, Huajian Gao

February 2022 – July 2022

### Brown University, USA

Graduate Research Assistant, Solid Mechanics, School of Engineering  
Working with Prof. Huajian Gao

2014 – December 2021

## EDUCATION

---

### Ph.D. Brown University, USA

Research Assistant, Solid Mechanics, School of Engineering

Dissertation: *Integrated simulation, machine learning and experimental approaches in small-scale mechanical characterization of materials*

Dissertation Committee: Prof. Huajian Gao (advisor), Prof. Brian W. Sheldon, Prof. Nitin P. Padture

---

---

**AWARDS & HONORS**

---

- **Outstanding Reviewer Award**, Acta/Scripta Materialia 2022

---

**TEACHING EXPERIENCE**

---

- Guest Lecturer, Statics (Instructor: Prof. Ting Zhu) Spring 2023
- Teaching Assistant, Advanced Engineering Mechanics (Instructor: Prof. Huajian Gao) Spring 2017

---

**PEER REVIEWED JOURNAL PUBLICATIONS († AUTHORS WITH EQUAL CONTRIBUTIONS)**

## ADVISING & MENTORING EXPERIENCE

Zhiming Dai & Cheng Wan, Master students, Georgia Tech

Fall 2023

Co-advising with Prof. Christos E. Athanasiou (Georgia Tech) on renovating and advertising our Machine Learning-Enabled Open-Access Platform/Website for Mechanical Testing of Materials.

---

## SERVICE ACTIVITIES

### Journal Reviewer:

Journal of the Mechanics and Physics of Solids, Acta Materialia, Scripta Materialia, Mechanics of Materials, Geoenergy Science and Engineering, Engineering with Computers, Engineering Applications of Artificial Intelligence

### Symposium Scribe:

AmeriMech Symposium Series on *Machine learning in heterogeneous porous materials*, October 2021, sponsored by the National Academies of Sciences, Engineering and Medicine and the U.S. National Committee on Theoretical and Applied Mechanics.

Ongoing commitment to co-authoring a review article titled “A century of fracture mechanics: from Griffith theory to machine learning” with Prof. Huajian Gao (Nanyang Technological University, Singapore; IHPC, A\*STAR, Singapore), Prof. Markus J. Buehler (MIT), Prof. George Em Karniadakis (Brown University), Prof. Pania Newell (University of Utah), and Dr. Hari Viswanathan (Los Alamos National Laboratory).

### Commitment to Building a Machine Learning-Enabled Open-Access Platform for Mechanical Testing of Materials:

My web-based platform has been available online since 2019 (<https://hint1412.github.io/XLiu.github.io/SIF/>).
